PO Box 700

TRENTON, NJ 08625-0700

JAMES E. MCGREEVEY  
*Governor*

GWENDOLYN L. HARRIS,  
*Commissioner*

Dear Reader:

We are pleased to present this tenth edition of "Organizations Serving People with Hearing Loss in New Jersey." This publication is one of the Division's most requested resources, as it includes important Web site and e-mail addresses, as well as TTY and fax resources information. Many resources outside of New Jersey also are included, as long as they continue to be helpful to New Jersey's residents.

One of the Division of the Deaf and Hard of Hearing's (DDHH) central functions is to act as a central resource from which people may obtain information regarding hearing loss. We receive thousands of calls and letters every year, requesting information on a wide range of topics related to the hearing loss and deafness. We, at the Division, hope that this booklet will lead you directly to the source you need.

The format is similar to that of previous editions, and it includes names of the organizations; their mailing address; Voice and TTY phone numbers; fax numbers; e-mail and Web site addresses; a brief summary of services; and a contact person for each. Listings are in alphabetical order.

We realize that as soon as a publication such as this is distributed, some of the numbers and addresses change. Therefore, we rely on you and the agency listed to notify us when the data changes so that we can make the appropriate corrections.

We hope this publication serves you well. Your comments are always welcome.

Sincerely,

Brian C. Shomo  
Director

# New Jersey Relay Services - Dial 711

---

**T**elecommunications Relay Services (TRS) allows anyone who may have a hearing or speech loss to communicate with almost anyone in the world on the phone! TRS is for YOU if you are deaf, hard of hearing, speech impaired, deaf-blind or a hearing person who wants to communicate with deaf, hard of hearing or speech impaired friends. Come and become a part of the world and learn more about TRS!

What is Relay? Relay is for anyone who is deaf, hard-of-hearing, late-deafened, deaf-blind or speech impaired, and who uses a TTY/TDD or standard telephone to communicate. The message is then skillfully relayed by a Communications Assistant (CA), word for word, to the hearing person on the other end of the line. The CA types what the hearing person has said back to the TTY user. And, as required by law, each conversation is handled with the strictest of confidentiality. There is no additional charge to access AT&T Relay Services.

Independence now is more than a noble calling for the relay community. Speech-to-Speech Relay Service, and 900 Pay-Per-Call Relay Services are available. Speech-to-Speech Relay Service allows a person whose speech may be difficult to understand to communicate over the telephone with the help of a specially trained Communications Assistant. No special telephone is needed for this calling option. Now TTY/TDD relay customers also can access any 900 service provider by dialing the 900 Pay-Per-Call Relay. Spanish Relay users can even access Speech-to-Speech, and 900 Pay-Per-Call services through a dedicated toll free number specifically for Spanish speaking relay users!

Dial 711: One simple number is all you need to put you in touch with the New Jersey Relay Service. You get the same quality connection you've always counted on, without having to dial your old, 11-digit toll-free number! In fact, dialing 711 will eliminate the need to dial 800 numbers altogether. However, the 800 numbers you are currently using will remain active. This means that customers today can dial either 711 for simple access or 800 numbers for quick access.

711 works for Voice, TTY / ASCII (PC), STS, Spanish callers, and 900 users alike, making access to all types of relay services more convenient and keeping the lines of communication open between the hearing and anyone with a hearing or speech loss.

Dialing 711 adds no additional charges and is available 24 hours a day, seven days a week. About the only thing you can't do with 711 is use it in the case of emergency. Remember: 711 is NOT the relay users equivalent of 911! Please make a note of that.

For additional information regarding relay services, visit [att.com/relay](http://att.com/relay).

# The Assistive Listening Technology Loan Program

**H**ave you found yourself avoiding restaurants, public meetings, your doctor's office, or even your temple or church, because you have trouble understanding what's being said? Do you sometimes feel like it might be easier to just stay home? Many public places are so noisy and filled with echoes that they can affect any hearing loss, even one too mild to require a hearing aid. Distance from the speaker, competing noises, and rooms with poor acoustic designs can make effective listening nearly impossible.

Assistive Listening Systems bridge the gap between your ears and the sounds you do want to hear, while shutting out the noises you don't. These systems combine a transmitter placed near the desired sounds, which is wirelessly linked to a small receiver that you wear. This receiver, in turn, delivers those sounds directly into your ears.

The Assistive Listening Technology Loan Program makes two types of systems available to you: Personal FM Systems for use up to 150 feet, and Wide Area FM Systems for use in larger spaces. Both systems are portable and come with simple instructions. They readily connect to all types of hearing aids and cochlear implants, and also work well for people without aids or implants, via earbuds or lightweight headsets.

If you'd like to try one of these systems, just contact any of the libraries listed below. The phone numbers are Voice. When you arrive to pick up your system, you will receive full training in how to use it, plus whatever other assistance you may require. Either system may be borrowed for up to four weeks.

This program is made possible by a grant from the NJ Division of the Deaf and Hard of Hearing to the NJ Library for the Blind and Handicapped, through its Deaf and Hard of Hearing Awareness Program which can be reached at (609) 530-3957 Voice, (877) 882-5593 TTY.
